hex·rays

Backend NodeJs Developer

Come on an exciting journey with us, as we invite you to join the leading of the cybersecurity revolution. Hex-Rays, a pioneering technology-focused company with a rich heritage, is looking for a **Backend Developer** to strengthen its growing team. At Hex-Rays, our mission is to develop software tools and address the ever-changing landscape of cybersecurity threats.

WHY CHOOSE HEX-RAYS?

- Hex-Rays is a pioneering software company, notable for developing the renowned reverse engineering tool, IDA Pro (Interactive Disassembler).
- We have a history of consistent innovation and updates to our products.
- Hex-Rays is positioned as a significant player in the realm of cybersecurity. Our tools, particularly IDA, play a crucial role in analyzing and understanding software, which is essential for identifying vulnerabilities and enhancing digital security.
- We are a tech-focused company that is experiencing rapid growth. This suggests a dynamic and forward-thinking organization, potentially offering opportunities for professional development and innovation.

Location: **Liège BE** (full remote work possible for foreigners)

For this position as a **Backend Developer,** your tasks will be mainly to:

- Design and implement scalable and robust backend solutions using Node.js.
- Develop and maintain server-side logic, ensuring high performance and responsiveness.
- Collaborate with front-end developers to integrate user-facing elements using server-side logic.
- Optimize and maintain database performance, ensuring high availability.
- Implement automated testing platforms and unit tests.

To be able to achieve these tasks the requirements are:

- Bachelor degree in computer science or equivalent.
- Proven experience as a **Backend Developer** with a focus on **Node.js.**
- Solid understanding of asynchronous programming and event-driven architecture.
- Proficient in developing RESTful APIs and integrating with front-end components.
- Experience with databases, both SQL (e.g., MySQL, PostgreSQL) and NoSQL (e.g., MongoDB).
- Fluent in English.

Enhance your career by joining our dynamic team. Consider working with the best in the industry, absorbing their expertise to amplify your own. Don't settle for a job, live an adventure where your experience is valued with an attractive base salary, and tempting performance bonuses.
