

## IT Trainer IDA

Come on an **exciting journey with us**, as we invite you to join the leading of the **cybersecurity revolution**. Hex-Rays, a pioneering **technology-focused company** with a rich heritage, is looking for a **C/C++ Developer** to strengthen its growing team. At Hex-Rays, our mission is to develop software tools and address the ever-changing landscape of cybersecurity threats.

### WHY CHOOSE HEX-RAYS?

- Hex-Rays is a pioneering software company, notable for developing the renowned reverse engineering tool, **IDA** (Interactive Disassembler).
- We have a history of consistent innovation and updates to our products.
- Hex-Rays is positioned as a **significant player** in the realm of cybersecurity. Our tools, particularly IDA, play a crucial role in analyzing and understanding software, essential for identifying vulnerabilities and enhancing digital security.
- We are a tech-focused company that is experiencing **rapid growth**. This suggests a **dynamic and forward-thinking organization**, potentially offering opportunities for professional development and innovation.

Location: Liège BE (fully remote work possible for foreigners)

As an **IDA Trainer**, you will play a crucial role in educating and empowering our customers and internal team members to leverage the full **potential of IDA Pro**. You will be responsible for **delivering comprehensive training sessions** tailored to the needs of various audiences, ranging from beginners to advanced users.

### Responsibilities:

- Develop and deliver **engaging training sessions**, workshops, and webinars on IDA Pro functionality, features, and best practices.
- Customize training content to meet the **specific requirements and skill levels** of different audiences, including cybersecurity professionals, **reverse engineers**, and researchers.
- Provide hands-on guidance and support to participants during training sessions, ensuring they gain practical experience in using IDA Pro effectively.
- **Collaborate with internal teams**, including product development and customer support, to stay updated on the latest features, updates, and use cases of IDA Pro.
- Continuously evaluate and improve training materials, methodologies, and delivery techniques to enhance the learning experience for participants.

### Requirements:

- Solid understanding of IDA Pro and its capabilities, gained through practical experience in reverse engineering, software analysis, or cybersecurity.
- **Proven experience in conducting training** sessions or workshops, preferably in a technical or cybersecurity-related field.
- **Strong communication and presentation skills**, with the ability to effectively convey complex concepts clearly and engagingly.
- **Excellent interpersonal skills**, with a passion for helping others learn and succeed.

- Self-motivated and **proactive attitude**, with the ability to work independently and collaboratively in a dynamic environment.
- Relevant certifications or qualifications in cybersecurity, reverse engineering, or related fields are a plus.

**Enhance your career** by joining our dynamic team. Consider working with the best in the industry, absorbing their expertise to amplify your own. **Don't settle for a job, live an adventure** where your experience is valued with an attractive base salary, and tempting performance bonuses.
